OYINLOLA LAWAL

SOFTWARE / FRONTEND DEVELOPER

lawaloyinlola.com | In/lawaloyinlola.com | oyinlolalawal1705@gmail.com | [+234 8163992628](tel:+2348163992628)

PROFESSIONAL SUMMARY

Dedicated and versatile software engineer with a strong foundation in frontend development and a proven track record of delivering high-quality software solutions. Proficient in React, Vue, TypeScript, and various web technologies. Known for quick learning, adaptability, and strong communication skills, combined with a passion for continuous self-development and team collaboration.

CORE SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, PHP, Dart
- **Frameworks/Libraries:** React.js, Vue.js, Laravel, Flutter
- **Tools:** Git, Babel, NPM, Yarn, FlutterFlow, Figma, Builder.io (eager to contribute to adoption)
- **APIs & Testing:** RESTful APIs, Jest, Cypress
- **Other:** Responsive Design, Cross-Browser Compatibility, Problem Solving and Debugging, Process Improvement, Visual Development Tools for Rapid Prototyping/Development (FlutterFlow, Builder.io …)

PROFESSIONAL EXPERIENCE

Tech Team lead | Tech N' Goodwill Limited   **Feb 2024 – Present**
- Led cross-functional teams (UI/UX, marketing, backend, frontend) to plan, ship, and iterate on SafulPay (FinTech) infrastructure and core systems.
- Shipped SafulPay v2: FlutterFlow (Flutter) front end with Go backend; collaborated on customer and agent portals, agency monitoring platform, and merchant bulk payment/collections web app.
- Rebuilt company website in React + TypeScript; transformed Figma designs into pixel perfect, accessible UI and improved load time/performance.
- Created product tutorials and documentation; maintained API/technical notes for smooth collaboration.
- Enforced good Git/GitHub practices (structured PRs, clean commits) and accessibility/ performance standards.

Frontend & Software Developer | Tech N' Goodwill Limited   **Aug 2023 - Feb 2024**
- Collaborate with cross-functional teams to develop and maintain web applications, including an e-commerce site using Laravel and Safulpay v1; front end in FlutterFlow backend in PHP.
- Demonstrated the ability to quickly master software tools for software development, writing, animation, and graphic design, creating engaging content tailored to client needs.

Frontend Engineer Intern | HNG Internship   **Jan 2025 - Apr 2025**
- Operated in a fast-paced, collaborative environment with backend/frontend engineers, PMs, designers, QA, and leads; shipped features to tight timelines.
- Co-built "Resolve" using Next.js + TypeScript: a voting platform for secure, free, and fair elections for individuals and organizations; implemented UI with Tailwind CSS and shadcn/ui components.
- Built a text-processing UI in React + TypeScript using Chrome Origin Trials (Detector API, Summarization API, Translation API) to auto-detect language and translate text on the fly.
- Practiced strong engineering hygiene: accessible, responsive UI; performance optimisation; structured PRs and clean commit history; collaborative reviews with crossfunctional team.

Interim Developer | AltSchool Africa   **March 2023 - March 2024**
- Intensive, education-driven internship focused on technical, soft skills and frontend engineering fundamentals.

- Built projects including "ScissorsWeb" and "Task Pilot" consuming RESTful APIs.
- Practiced Git/Github workflows, wrote unit tests to ensure code quality and functionality.

IT Specialist | Nimble Capital Limited   **Feb 2019 – Dec 2021**
- Oversaw Oversaw day-to-day technical operations, ensuring uptime and rapid bug resolution.
- Automated customer data collation and contact workflows for efficient records management.
- Executed targeted email/SMS outreach campaigns and collected feedback for iteration.

EDUCATION

BSc In Animal Nutrition   **2013 – 2020**
Federal University of Agriculture, Abeokuta, Nigeria

Diploma In Frontend Engineering   **2023 – 2024**
AltSchool Africa, Lagos, Nigeria

TRAINING AND CERTIFICATION

Udemy.com | Jonas Schmedtmann
- Build Responsive Real-World Website with HTML and CSS.
- The Complete JavaScript Course: From Zero to Expert.
- The Ultimate React Course: React, Next.js, Redux & More

Coursera.org | Deep Teaching Solutions
- Learning How to Learn: Powerful mental tools to help you master tough subjects

HNG Internship | HNG 12 (2025) program
- Finalist: Frontend Development Track

PROJECTS

Safulpay Ecosystem (FinTech) | FlutterFlow (Flutter), React (TypeScript), PHP / Go backend
- SafulPay fintech application for agents, users and marchants to provide seamless and secure mobile money solutuons; frontend - FlutterFlow (Flutter), backend v1 (PHP), v2 (Go).
- Built agency monitoring web app for agency monitoring and management (React TS + Laravel).
- Built merchant web app for bulk payments and collections. (Laravel), integrated REST endpoint.
- Rebuilt company website in React + TypeScript, Tailwind CSS and GSAP for animation to improve overall load time/performance by ~40% and translate Figma to production UI.

Resolve (Voting Web App) | Next.js, TypeScript, Tailwind, shadcn/ui
- A Secure voting platform for individuals and organizations. It features a responsive and accessible user interface, integrated REST endpoints and was developed following structured PR/commits and performance best pratices

ScissorsWeb (URL shortener and QR code genreator) | React (TypeScript), GSAP
- Implemented functionalities such as URL shortening, QR generation, analytics, Supabase authenticcation and storage, system light/dark theme; responsive, accessible and animated UI.

TaskPilot (Task Management App) | Vue (JavaScript)
- A task management application built with Vue 3's composition API. It serves to demonstrates framework versatility and component-based architecture.

Chat With Isime (Text Processing UI) | React (TypeScript)
- A text processing UI that leverages Chrome Origin Trials APIs (Detector, Summarization, Translation) for automatic language detection and on-the-fly text translations.
